*Appropriate referencing styles can be found at <http://www.library.uwa.edu.au/howto/citemenu.html>. The Harvard style is recommended for the sciences. In addition, please note the following:

- Each drawing, picture, photograph, quotation or block of text copied from a source must be acknowledged individually. This can be done using one of several referencing styles (see above) or by including the full reference in the text or in a footnote. It is not sufficient to simply list sources in a bibliography at the end without including the individual references to the sources in the main text.
- The same rules apply to material taken from the web. The authorship and source must be traceable.
- The boundaries between your original work and copied work must be clear. Use quotes, indentation and/or font styles to make the distinction.
- Failure to reference assistance and sources of information is Plagiarism and is subject to severe penalties. These are detailed in the School's Policy on Plagiarism which can be found at <http://www.mech.uwa.edu.au/undergrads/policies/plagiarism.html>
